SINGLE PRESS WHEEL UNIT

The Single Press Wheel unit can be mounted either directly to the cultivator tine or the u-bolts can be turned to bolt to 50 x 50 tubing at the rear of the machine. Can be pinned up out of use if conditions become unfavourable. Standard features include:

- Hardened steel bushings on all pivot points.
- Pressure adjustable using mounting frame or u-bolts.
- Semi-pneumatic "V" or "Square" profile tyre on alloy wheel.
- 2 double sealed wheel bearings, non greasable.
