- 19 FASTENERS AND ACCESSORIES

MAKING YOUR SEEDING PROGRAM MORE EFFICIENT

Australian Made since 1994

In this catalogue, we refer to the names and trade marks of a number of machinery suppliers for the purpose of identifying the machines with which our parts can be used. There is no relationship between Maxipoint and these machinery suppliers and the use of our parts has not necessarily been approved by such suppliers. However, Maxipoint does endeavour to work closely with seeding bar manufacturers to design seeding tools that are suitable for Australian conditions and fit within the working parameters of the seeding bar.

POINT BOOT KITS

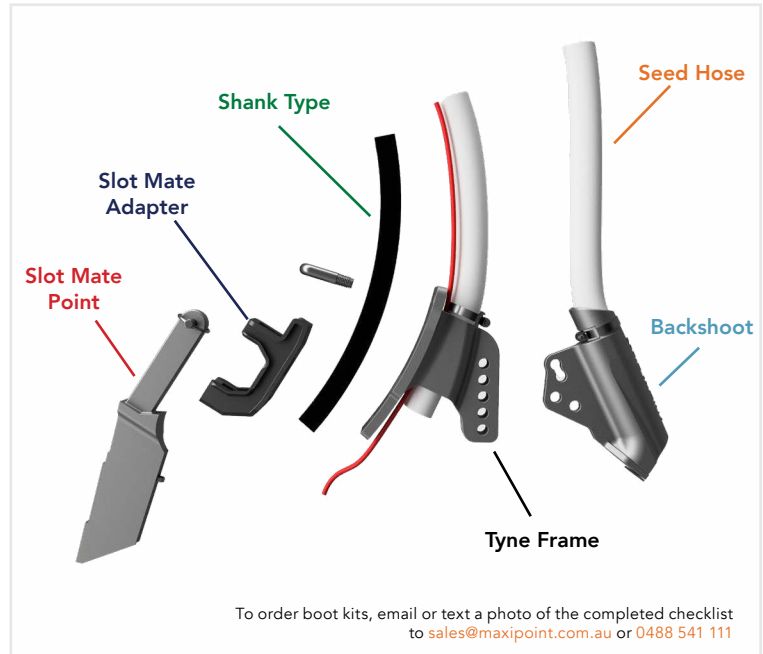

All Point & Boot Kits Include:

- Boot Kit
- Slot Mate Adaptor
- Lynch Pin
- Slot Mate Knife Point
- 2 x 2¾ x ½ Gr.8 Hex Bolt/Nut
- Other Bolts and Nuts to suit

SLOT MATE RANGE

Slot Mate V

- The original Slot Mate
- Working angle for minimum till seeding.
- Various Tungsten options available

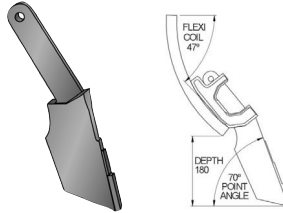

12mm	PT-1SMV	\$55
15mm	PT-1SMV5	\$59
SLL	PT-1SMV8	\$79

Slot Mate V Short 5"

- Shortest point in the range.
- For use with hard ground, rough or rocky paddocks.

12mm	PT-1SMVC	\$55
15mm	PT-1SMV5C	\$59

Slot Mate Razor

- Low soil disturbance.
- Easier pulling, less drag.

15mm	PT-1085	\$61
SLL*	PT-1086	\$81

Slot Mate Sweep

- Quick change sweep.
- Extra hardfacing on wing tips.

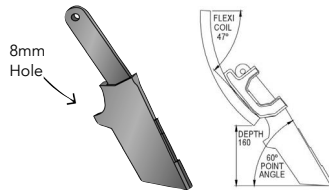

4"	PT-2020	\$43
6"	PT-2021	\$45
8"	PT-2022	\$47
10"	PT-2023	\$49
12"	PT-2024	\$51

Slot Mate S

- Straighter angled point
- Various tungsten options.
- Liquid hose holder – 8mm.

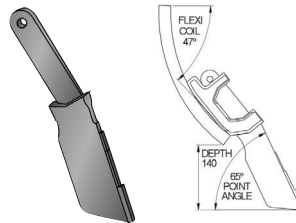

12mm	PT-1SMS	\$55
15mm	PT-1SMS5	\$59
SLL	PT-1SMS8	\$79

Slot Mate D

- Similar angle and depth to the bolt on Dyna Blade Curved
- 6" digging depth, 65° angle of attack

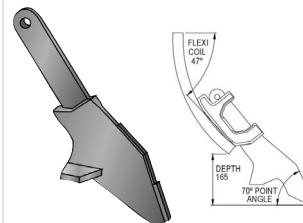

12mm	PT-1SMD	\$57
------	---------	------

Slot Mate F

- Inverted T design for more soil disturbance
- 60mm wing with tungsten reinforcing

12mm	PT-SMF12	\$70
------	----------	------

Slot Mate Tungsten Options

SLL = Super Long Life
All SLL Points include extra hardfacing on each side of the point.

All our tungsten, regardless of size, is the same high quality, high durability grade, sourced from long term and well established tungsten carbide suppliers.

Our tungsten is field tested and proven over many years of use in the hardest Australian conditions from abrasive sands to rocky paddocks, and we have found the optimum balance between hardness and resistance to shock impact.

UPGRADES

Trash Guard

Sturdy steel trash guard to give the tyre a streamlined shape.

PT-2002 **\$26**

Slot Mate Adaptor

1/2" PT-1SMA1/2
7/16" PT-1SMA7/16

\$9.50

Slot Mate E

Adaptor for using Ezi Fit range of points (see pg. 7).

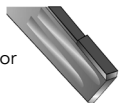

PT-SMEA **\$18**

Hard Facing

Extra hardfacing on the side of points for superior wear protection.

PT-UPH **\$10**

Liquid Nut

To hold liquid tube, specify tube OD on order.

PT-UPN **\$3**

Liquid Block

Similar to nut but gives added protection to the liquid tube. Specify tube OD on order.

PT-UPB **\$12**

SINGLE BOLT AND SEED DRILLS

Maxi Seeder

- Minimum till application with improved seed depth control
- Tungsten tipped leading edge and tungsten reinforced wing
- Common bolt size 7/16 x 2¼

PT-1001

\$54

Maxi Plus

- Same shape but bigger than the Maxi Seeder
- Wider, Deeper, Thicker and more tungsten
- Common bolt size 7/16 x 2¼

PT-1004

\$60

Pasture Point

- Tungsten tipped edge with tungsten reinforced wing
- Seed Drill Fitment
- PT-1014 = Connor Shea/Agrow/ Aitchison
- PT-1015 = Duncan

PT-1014

\$51

PT-1015

\$51

1 Bolt Ripper

- Common knife point. Fits most tyres
- Common bolt size 7 /16 x 2¼

PT-1007

\$47

Scari Ripper

- Knife point for scarifier tyres
- Common bolt size:½ x 2½

PT-1009

\$58

Maxi Knife

- No till design with tungsten edge
- Common bolt size 7/16 x2¼

PT-1002

\$46

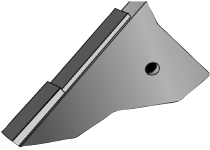

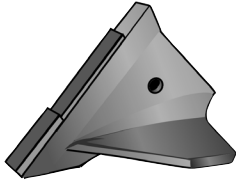

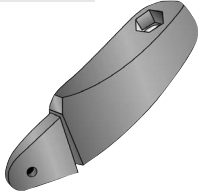

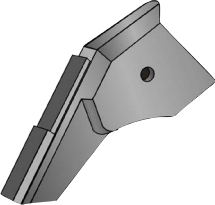

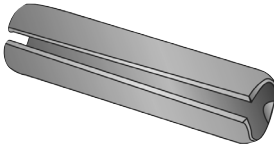

BOLT ON/WEDGE POINTS

This range of points have been manufactured by Maxipoint for over 20 years. Durable, reliable and withstanding the test of time.

CULTIVATORS – CONVENTIONAL SEED BOOTS

Maxipoint seed boot kits fit a wide range of machines and have adjustable height and closer angle options.

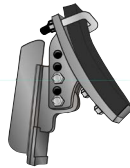

Height Options

Actual closer plate height depends on shank type image for indicative purposes only

- Heavy Duty construction
- Fit all 2 bolt tynes
- Boot Kits include bolts and fasteners
- When ordering boot kit or tyne frame *Please specify machine or tyne/shank type*
- U-Bolt used FA-0703
- Split boots available in 40mm or 70mm (For more tynes see page 11)

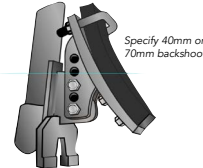

Single Shoot Fixed

SB-1230 **\$96**

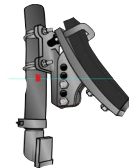

Single Shoot Split

Double Shoot Split

DB-1222 **\$135**

Double Shoot Flexi

DB-1224 **\$139**

CULTIVATORS – CONVENTIONAL SEED BOOTS

Fixed Backshoot 50mm

- Adjustable angle
- 50mm closer plate width
- Tungsten tile on closer plate

BS-1240 **\$72**

Split Backshoot 40mm

- 40mm split options
- Adjustable angle
- Tungsten protected closer plate

BS-1260 **\$89**

Flexi Backshoot

- 40mm closer plate
- Better closer plate control in rocky ground
- Suits 38mm OD seed hose

BS-1280 **\$88**

Split Backshoot 70mm

- 70mm paired row seeding
- Centre of each outlet = 70mm
- Adjustable angle and height
- Replaceable closer plate

BS-1262 **\$99**

Fixed Backshoot 30mm

- Adjustable Angle
- 30mm replaceable closer plate
- Tungsten tile and hardfacing on close plate

BS-1230 **\$80**

Side Banded Backshoot

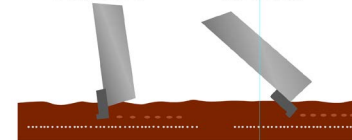

- Left and right available, specify requirements on order
- Adjustable angle and height
- Replaceable closer plate

BS-1290 **\$88**

Backshoot Angles

Standard Tilt Back*

**We recommend tilt back angle when double shooting in heavy soil conditions
Actual closer plate angle depends on shank type image for indicative purposes only*

Closer Plate Section

- Tungsten tile protection
- Available for single or split backshoots

40mm Single	BS-0243	\$19
50mm Single	BS-0244	\$21
40mm Split	BS-0246	\$26
70mm Split	BS-0247	\$27
30mm Single	BS-0239	\$21
Side Banded	BS-0236	\$21
Flexi Boot End	FB-0255	\$39

CULTIVATORS – INLINE SERIES SEED BOOTS

Inline Series seed boots are hard wearing, durable and extremely strong due to their single piece design offering accurate seed and fertiliser placement. Deep banding fertiliser and multiple seed placement options are available. Inline Series boots are very simple to set up for even seed depth control access to the bar.

Features

- Tungsten grit hardfacing for longer wear life
- Deep banding fertiliser
- Accurate and consistent seed placement
- Narrow slim profile for less soil disturbance
- Large outlet holes to minimize plugging
- Liquid fertiliser hole
- **Flat** suits Edge on Tynes
- **Curved** suits C Shank tynes

Slot Mate Razor

We recommend using the Slot Mate Razor with the Inline Series boots, in order to ensure accurate fertiliser placement and achieve the longest wear life in the boot.

Case Concord

- Single shoot seeding only
- Uses Slot Mate range points (refer to pg4)
- Kit price includes slot mate point

PC-4001

\$220

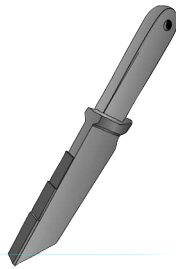

SLOT MATE A

Maxipoint has a range of excellent value high quality replacement parts for Ausplow bars.

Slot Mate A

- Quick change points
- Stronger thicker tongue means no breakages
- Standard 12mm or 15mm Super Long Life tungsten option

6"	PT-1071	\$57
7"	PT-1072	\$57
8"	PT-1073	\$57
6" SLL	PT-1076	\$77
7" SLL	PT-1077	\$77
8" SLL	PT-1078	\$77

There is no relationship between Maxipoint Cultivation Technologies and Ausplow Pty Ltd. Ausplow Pty Ltd has not approved the use of Maxipoint parts on its machinery

DB Ripper

- Bolt on knife point
- Made from high strength spring steel
- 12mm wide tungsten

7"	PT-115A	\$59
8"	PT-115B	\$61

Slot Mate A – Winged

- 60mm wing for increased soil disturbance

6"	PT-1080	\$85
7"	PT-1081	\$85
8"	PT-1082	\$85

Slot Mate A – Sweep

- Heavy duty sweeps for full cut ripping
- Hardface wear protection

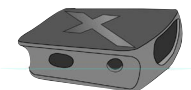

10"	PT-2029	\$54
12"	PT-2030	\$56

Quick Change Adapter

- Fits Slot Mate A range
- Allows quick change of points

PT-1070	\$9.50
---------	---------------

UPGRADES

Trash Guard

Sturdy steel trash guard to give the tyre a streamlined shape.

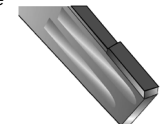

PT-2008 **\$26**

Hardfacing

Extra hardfacing on the side of points for superior wear protection.

PT-UPH **\$10**

Liquid Nut

To hold liquid tube, specify tube OD on order.

PT-UPN **\$3**

Liquid Block

Similar to nut but gives added protection to the liquid tube. Specify tube OD on order.

PT-UPB **\$12**

CONSERVA PAK

Replacement parts to suit Conserva Pak seeding bars

Conserva Point

- Common replacement knife point for Conserva Pak

PT-1006	Standard	\$65
PT-1019	Hardfacing	\$75
PT-1020	SLL	\$85

Standard

Super Long Life

Conserva Press Wheel

- Semi Solid rubber with aluminium rims.
- Double sealed bearings
- Non greasable
- Optimum profiles for seed soil contact, for use with single or paired row boots

SP-1105	V	\$172
SP-1107	Square	\$172

25mm

80mm

*Specify tyre profile on press wheel order

Fertilisers shoot

- Bolt on replacement
- Hardfaced edges for longer life
- Holders for liquid tube at rear

BS-1286	\$44
---------	------

Press Wheel Scraper

- Tungsten tile protection

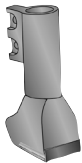

SS-1218	\$15

Making your seeding program more efficient

PRESS WHEELS – SINGLE SYSTEM

The Single Press Wheel units can be mounted either directly onto the cultivator tyne or the U-bolts can be turned to bolt to 50x50 square tube at the rear of the machine

Single Press Wheel System

Wheel Only – V Profile

Wheel Only – Square Profile

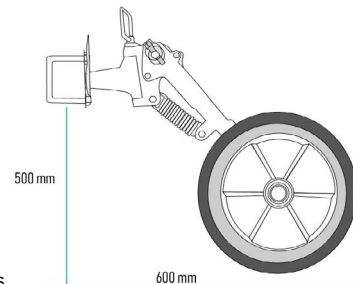

SS-1200 **\$320**

SP-1100 **\$155**

SP-1101 **\$155**

Standard Features include:

- Hardened steel bushings on all pivot points.
- Semi-pneumatic “V” or “Flat” profile tyre.
- 2 double sealed wheel bearings, non greasable.
- Strong lightweight aluminum hubs.

Vertical bar

SS-0109 **\$62**

Mount Bar 'Not Supplied'

Bar Extension SS-0110 **\$155**

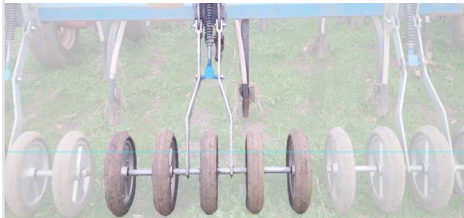

PRESS WHEELS – TRIPLES/GANGS

Press Wheel Gangs

- Can be supplied in gangs of 3 or 5 semi pneumatic wheels
- The spring activated pressure system is constructed from 12mm steel
- 6 -13 inch spacings are available

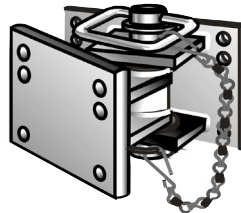

PT-1006	Triple	\$865
PT-1019	5 Gang	\$1280

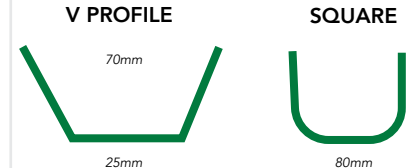

Press Wheel Mounting Framework

- Heavy Duty Swivel Extension bolts to rear of Triple System, allowing wheels to track more accurately through turns
- Reduces drag, saves fuel

TS-1101 **\$145**

Tyre Profile

**Specify tyre profile on press wheel order*

Press Wheel Parts

FA-0851	Bearing	\$9
SP-0601	Seal	\$4
SP-0101	Tyre V	\$70
SP-0104	Tyre Flat	\$70

Press Wheel Scraper

- For use in very heavy soil conditions
- Easy to fit and adjust
- Tungsten tipped mud scraper

SS-1216 **\$45**

Triple System Parts

TS-0301	T Piece	\$58
TS-0302	Spring	\$96
TS-0305	Sleeve	\$25
TS-0350	Axle	\$95.50
TS-0304	Saddle	\$34

COULTERS

Our heavy duty couler system is an effective stubble management tool suitable for all bar types. Our coulters have been proven overtime to effectively slice through stubble for easy seeding with virtually no trash build up in and under the seeding bar.

**For questions and information regarding mounting coulters please contact us on 08 9354 1111 or email sales@maxipoint.com.au*

- Available in 9 / 10 / 11 / 12 spacing.
- Wider spacings available on request.
- Heavy duty mounting kit for 100mm SQ tube.
- 150° swivel for better turning.
- Greaseable pivot points.
- Simple depth and pressure adjustment.

Couler Systems	Part No.	Price
Twin Disc Couler System	CS-1300	\$985 + GST
Single Disc Couler System	CS-1301	\$840 + GST

SEED BRAKES

AIRGUARD Seed Brakes are designed to help you achieve consistent optimum air flow across every opener on your air drill to achieve perfect seed and fertiliser placement. Controlled by a series of washers at the exhaust port. The adjustable air speed allows you to match your specific type of opener and achieve more efficiency with no seed bounce.

- **Minimise** seed damage – The seed brake uses a spiral system to slow seed flow: there are no baffles for the seeds to hit against.
- **Lower cost** – AIRGUARD Seed Brakes are competitively priced making it an affordable investment.
- **Deliver durability** – The UV protected plastic withstands harsh weather conditions.
- **Reduce seed waste** – Controlled airflow eliminates seed bounce and seed soil mixing.
- **Improve yield** – With optimum seed and fertilizer placement.
- **Prevent plugging** – Modify airflow to match your specific type of opener.

Making your seeding program more efficient

BLOCKAGE PREVENTION SYSTEMS

The Airguard Blockage Prevention System keeps the tubes of your air seeder free from plugging. By attaching it directly to the air intake of your drill, this oil cooler reduces oil temperature and moisture levels for optimum flow.

- **Seed in wet or dry conditions** – Heats air by 10°C to reduce condensation and plugging issues.
- **Reduce humidity** – Significantly decreases the moisture in your air drill to reduce plugging.
- **Lower oil temperature** – Increasing the life of your oil and less wear on your tractor.
- **Use dusty fertilizers** – Eliminates plugging with powdery fertilizers.
- **Seed in wet and dry conditions** – Work in humid conditions without plugging issues by heating the air at intake.

Air Cart Fitment

Airguard Blockage Prevention Systems come with a specific bracket included to suit almost every air cart on the market. When ordering please specify your air cart model. For fitment questions or product suitability contact Maxipoint.

Blockage Prevention System

Includes bracket
(Brackets available to suit any air cart)
\$2,980

Airguard Snorkel Kit

The Airguard Snorkel Kit keeps your fan screen from plugging and eliminates build-up of dust on internal components like manifolds and meters.

- **Reduce Build-up of Residue** – Stops fan from sucking in chaff and dirt.
- **Prevent Plugging** – Eliminates build-up of dirt on meters, manifolds and openers.
- **Single or Dual** – Available in Single 8" flex hose for lower air flows or dual for higher capacity fans.
- **Optional Cooler Kit** – Snorkel is available with or without the cooler assembly.

Relief Kit

Relief kit price depends on TBH/TBT and drawbar length

Terms and Conditions

All prices in the product and price guide are recommended retail pricing only and exclude GST. Maxipoint reserves the right to change prices and specifications without notice. Maxipoint recommends that you consult your agronomist to determine suitability of Maxipoint products for your application. Maxipoint will not accept liability for any loss or damage caused by or as a consequence of the use of its products.

Warranty

Maxipoint offers a full replacement warranty for any faulty products. Maxipoint pays freight on replacements. Warranty is valid for 1 year from the date of purchase and covers all Maxipoint products. For more warranty information please see our warranty claim form on the website or speak to your supplying dealer.
